2101-M POND INTERIM STATUS CLOSURE PLAN

INFORMATION MEETING

ATTENDEES:	P. L. Boileau (DOE-RL)	DATE: October 3, 1989
	J. A. Caggiano (WHC)	
	D. Cummings (Ecology)	LOCATION: Richland, WA
	D. L. Duncan (DOE-RL)	
	M. T. Gordon (Ecology)	
	T. M. Michelena (Ecology)	
	R. T. Ogg, (WHC)	
	F. A. Ruck III (WHC)	
	J. E. Thrasher (WHC)	
	J. G. Woolard (WHC)	

PURPOSE:

Provide an overview of the 2101-M Pond Interim Status Closure Plan to the Washington State Department of Ecology (Ecology) October 3, 1989.

MINUTES:

Mr. R. T. Ogg presented the overview of the 2101-M Pond Closure Plan, see attached.

Mr. Toby Michelena, from Ecology, asked what the status was for cover design and post-closure plan for 2101-M Pond. Mr. Michelena requested to see the cover design and post-closure plan criteria with the first Notice of Deficiency (NOD) Response. Mr. Fred Ruck, of WHC, said WHC would submit the information to Ecology as requested, however, a definitive commitment cannot be made at this time on when the design would be completed.

Mr. Michelena questioned the concentration levels of barium presented in Appendix C-2 with regards to EP toxicity levels or ICP levels. After further evaluation of the document, it was determined to be ICP levels.

It was decided that Mr. Ruck will be the contact within the WHC Environmental Division for the 2101-M Pond Closure Plan.

The Ecology permit writer for the 2101-M Pond Closure Plan was designated as Ms. Megan Lerchin.

Ecology requested a more detailed presentation of the 2101-M Pond Closure Plan to be presented in Lacey, Washington during the next Unit Managers' Meeting in November 1989. Specific criteria to be addressed within the 2101-M Pond Closure Plan is groundwater and soil sampling.

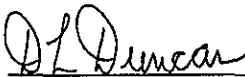

ACTION ITEMS:

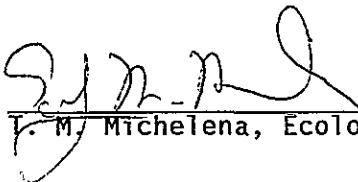

1. The WHC will provide Ecology with five documents rather than the normal three. The additional documents will be submitted by October 13, 1989.
2. Ecology will notify WHC within 30 days if they cannot meet the 60 day review schedule for the closure plan.

P. L. Boileau, DOE-RL

D. L. Duncan, DOE-RL

T. M. Michelena, Ecology

F. A. Ruck, WHC
